IMPORTANT NOTES

The Company is making a renounceable entitlement issue of two (2) new Shares for every one (1) Share held by Eligible Shareholders on the Record Date at an issue price of three (3) cents per new Share payable in full on application. The issue price represents a discount of 1% to the volume weighted average share price for the 5 traded days prior to the announcement of the Entitlement Issue on 22 September 2008. The total number of new Shares to be issued pursuant to the Entitlement Issue will be approximately 304,950,735. The gross proceeds (before the costs of the Entitlement Issue) will be approximately nine million, one hundred and forty eight thousand and five hundred and twenty two Dollars (\$9,148,522). The closing sale price of the Company's Shares on ASX on 31 October 2008 was 1.5 cents.

Shareholders should be aware that their Rights may be valuable. The Entitlements Issue is renounceable which enables Shareholders who do not wish to take up all or some of their entitlement to sell their Rights on the ASX or transfer all or part of some of their entitlement to another person other than on the ASX. It is important that Shareholders either accept their entitlement or deal with their entitlement as set out in the accompanying Entitlements and Acceptance Form. If an eligible issuer sponsored shareholder wishes to transfer all or part of their entitlement to another person other than on the ASX the shareholder will need to complete and forward a stamped renunciation and transfer form (which can be obtained by calling the ComTel Rights Issue Information Line on 1300 556 161) and your Entitlement and Acceptance form, together with the applicable transferee cheque in relation to those entitlements a shareholder wishes to transfer. CHESS holders are only able to trade their rights using their broker. Shareholders who take no action in respect of their new Shares and who do not deal with their entitlements may receive no benefit and their Rights will lapse and will form part of the shortfall available firstly under the Shortfall Facility and secondly form the Shortfall Shares underwritten by the Underwriter.

Shareholders should read this document in its entirety and, if in doubt, should consult their professional advisors. Before applying for new Shares under this Prospectus, Shareholders should consider whether the new Shares are a suitable investment for them.

Definitions of certain terms used in this Prospectus appear in Section 10.

This Prospectus is dated 3 November 2008 and a copy of this Prospectus was lodged with ASIC on that date. ASIC and ASX take no responsibility for the content of this Prospectus.

The expiry date of the Prospectus is the date 13 months from the date of this Prospectus (**Expiry Date**). No Shares will be allotted or issued on the basis of this Prospectus after the Expiry Date.

The number of new Shares to which you are entitled is shown in the accompanying Entitlement and Acceptance Form. Applications for Shares offered pursuant to this Prospectus can only be submitted on an original Entitlement and Acceptance Form.

The Entitlement Issue is being fully underwritten by Co-Investor Capital Partners Pty Ltd.

This Prospectus does not constitute an offer to Shareholders who are registered as holders of ordinary Shares on the Record Date but who do not have a registered address in Australia or New Zealand.

The Directors of the Company are pleased to offer Eligible Shareholders the opportunity to participate in this Entitlement Issue which seeks to raise a total of approximately \$9,148,522 before costs associated with the capital raising.

The Entitlement Issue is a renounceable offer of two (2) new Shares for every one (1) Share held on the Record Date at an issue price of three (3) cents per new Share. Proceeds from the Entitlement Issue will be used to reduce borrowings and pay amounts owing under the Empowered Acquisition. Specifically, the proceeds will be applied to:

2. repay the \$2,000,000 unsecured vendor loan that was entered into pursuant to the Empowered Acquisition;
3. pay \$883,482 in relation to the 2007/2008 financial year EBITDA earnout under the share sale agreement pursuant to the Empowered Acquisition; and
4. repay part of the bridging facility with Co-Investor Capital Partners Pty Ltd that was entered into to enable the Company to repay amounts owing to Australia and New Zealand Banking Group Limited pursuant to the Empowered Acquisition.

The Entitlement Issue is fully underwritten by Co-Investor Capital Partners Pty Ltd.

Your entitlement to subscribe for new Shares or dispose of your Rights and other matters that are required by law to be disclosed are set out in this Prospectus. Your entitlement to new Shares or the disposal of your Rights is set out in the accompanying Entitlement and Acceptance Form. Rights trading will commence on 7 November 2008 and the last day for Rights trading will be 27 November 2008.

I urge you to read the Prospectus thoroughly. Please note that the Prospectus is intended to be read in conjunction with publicly available information relating to the Company, including the Annual Report for the financial year ended 30 June 2008.

Shareholders with any queries in relation to the Entitlements Issue should contact myself on 0414 888 999 or Computershare Investor Services Pty Limited, the Company's Share Registry on 1300 556 161.

Yours faithfully,

David Sweet
Managing Director

4. DETAILS OF THE OFFER

4.1 Offer

By this Prospectus, the Company offers for subscription approximately 304,950,735 new Shares pursuant to a pro rata renounceable entitlement issue to eligible Shareholders of two (2) new Shares for every one (1) Share held on the Record Date at an issue price of three (3) cents per new Share, payable in full on application. The closing sale price of the Company's Shares on ASX on 31 October 2008 was 1.5 cents. The issue price represents a discount of 1% to the volume weighted average share price for the 5 traded days prior to the announcement of the Entitlement Issue on 22 September 2008. The gross proceeds (before the costs of the Entitlement Issue) will be approximately nine million, one hundred and forty eight thousand, five hundred and twenty two Dollars (\$9,148,522). The purpose of the Offer and the use of funds raised are set out in Section 5 of this Prospectus.

Fractional entitlements to new Shares will be rounded up to the nearest whole number of new Shares. The Company currently has Options and Notes on issue as set out in Section 5.3 of this Prospectus. Holders of Notes or Options will not be entitled to participate in the Offer. Options which have vested may be exercised by the Option holder prior to the Record Date in order to participate in the Offer. Note holders will only be entitled to participate in the Offer if converted by the holder prior to the Record Date.

4.2 How to Accept the Offer

Your acceptance of the Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus. You may apply for Additional Shares in excess of your Entitlement as shown on the Entitlement and Acceptance Form. Applications for Additional Shares will be dealt with in accordance with the Shortfall Facility described in section 4.5 below.

You may participate in the Offer as follows:

- (a) if you wish to accept your Entitlement in full:
 - (i) complete the Entitlement and Acceptance Form in accordance with the instructions set out on the form, filling in the details in the spaces provided; and
 - (ii) attach your cheque or pay by BPay for the amount indicated on the Entitlement and Acceptance Form; or
 - (b) if you only wish to accept part of your Entitlement and sell the balance of your Rights:
 - (i) fill in the number of new Shares you wish to accept and the balance of your Rights in the space provided on the Entitlement and Acceptance Form; and
 - (ii) attach your cheque or pay by BPay for the appropriate application monies (being the number of new Shares you wish to accept multiplied by three (3) cents); or
 - (c) if you wish to apply for Additional Shares in excess of your Entitlement, complete the Additional Shares section on the Entitlement and Acceptance Form. Applications for Additional Shares will be dealt with in accordance with the Shortfall Facility described in section 4.5 below. The same payment
-

terms apply to applications for Additional Shares as applications for Shares accepted as part of your Entitlement; or

- (d) if you are an issuer sponsored shareholder and wish to transfer your Entitlement to another person other than on the ASX then the transferee must complete the Entitlement & Acceptance Form in accordance with the instructions set out on the form and the renunciation and transfer form (which can be obtained by calling the ComTel Rights Issue Information Line on 1300 556 161), and attach the completed Entitlement and Acceptance Form and renunciation and transfer form together with the transferees cheque; or
- (e) if you do not wish to accept all or part of your Entitlement, you have the ability to sell the Rights which you have decided not to accept rather than allow them to lapse. New Shares not taken up will form part of any shortfall and will be firstly available under the Shortfall Facility and then revert to the Underwriter and you will receive no benefit. It is therefore important that you take action either to take up your Entitlement or sell your Rights in accordance with the above instructions and the instructions on the back of the Entitlement & Acceptance Form.

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "ComTel Corporation Limited – Entitlement Issue Account" and crossed "Not Negotiable". Alternatively, payment can be made by BPay (using the BPay details on the attached Entitlement and Acceptance Form).

Your completed Entitlement and Acceptance Form and cheque or payment by BPay must reach the Company's share registry no later than 5pm on the Closing Date. Shareholders must not forward cash. Receipts for payment will not be forwarded to Shareholders.

The Offer is renounceable. Accordingly, a Shareholder may sell or transfer all or part of their Entitlement. Refer section 4.6 for details.

4.3 Minimum Subscription

The Offer is fully underwritten (refer to Section 4.4). Accordingly, there is no minimum subscription.

4.4 Underwriting

The Offer is fully underwritten by Co-Investor Capital Partners Pty Ltd.

Refer to Section 8.2 of this Prospectus for further details of the terms of the Underwriting Agreement.

4.5 Shortfall Facility

Each Eligible Shareholder (with the exception of Co-Investor) may apply for Additional Shares, in addition to their Entitlement up to a maximum of 13,722,783 Shares at the Issue Price of three (3) cents per Share. If a Shareholder wishes to apply for Additional Shares in excess of its Entitlement the Shareholder must complete the Additional Shares section on the Entitlement and Acceptance Form and return it with payment by the Closing Date.

In the event that there is a Shortfall in the subscriptions under the Entitlement Issue, the Company in consultation with the Underwriter reserves the right to allocate in its absolute discretion any Shortfall of New Shares to subscribers for Additional

Shares such that the provisions of the Corporations Act, in particular the takeovers prohibitions in Chapter 6, are complied with.

There is no guarantee that Shareholders will be successful in being allocated any of the Additional Shares that they may apply for. The Company in consultation with the Underwriter may reject in its discretion any application for Additional Shares or allocate fewer Additional Shares than applied for by subscribers for Additional Shares.

No interest will be paid on any acceptance monies received or returned.

Any Entitlement not taken up or sold pursuant to the Offer will form the Shortfall and will be dealt with, firstly in accordance with the Shortfall Facility and then in accordance with the Underwriting Agreement.

4.6 Rights Trading and ASX Listing

The Rights are renounceable. This enables Shareholders who do not wish to subscribe for some or all of their Rights to sell some or all of their Rights.

Trading of Rights will commence on 7 November 2008, and will cease at the close of trading on 27 November 2008. Rights to which you are entitled may be sold on the ASX between these dates should you choose not to accept your full entitlement of new Shares. Entitlements not sold or taken up by 5pm on 4 December 2008 will automatically lapse (unless the Closing Date is extended by the Company in which case the date Rights trading ceases will also be extended).

If an eligible issuer sponsored shareholder wishes to transfer all or part of their entitlement to another person other than on the ASX the shareholder will need to complete and forward a stamped renunciation and transfer form (which can be obtained by calling the ComTel Rights Issue Information Line on 1300 556 161) and your Entitlement and Acceptance form, together with the applicable transferee cheque in relation to those entitlements a shareholder wishes to transfer.

4.7 ASX Quotation

Application for official quotation by ASX of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If official quotation for the new Shares is not granted by the ASX before the expiration of 3 months after the date of issue of the Prospectus, (or such period as modified by ASIC), the Company will not allot or issue any new Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant official quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the new Shares now offered for subscription.

Eligible Shareholders who sell new Shares before they receive their holding statements will do so at their own risk.

4.8 Allotment of Shares

No allotment of new Shares will be made pursuant to this Prospectus until proceeds of the Rights Issue have been received and permission is granted for the quotation of the new Shares on the ASX.

It is expected that new Shares issued pursuant to the Offer will be allotted as soon as practicable after the Closing Date. Where the number of Shares issued is less than

the number applied for, or where no allotment is made, surplus application monies will be refunded without any interest to the applicant as soon as practicable after the Closing Date. Shareholders statements for the new Shares will be dispatched upon completion of allotment.

Pending the allotment and issue of the Shares or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest, irrespective of whether allotment takes place.

If the Closing Date for applications is extended, the date for allotment of New Shares and the dispatch of shareholder statements will also be extended.

4.9 Overseas Shareholders Excluded

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and new Shares will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

The Prospectus and Entitlement and Acceptance Form are only being sent to those Shareholders with registered addresses in Australia and New Zealand on the Record Date.

Shareholders resident in New Zealand should consult their professional advisors as to whether any government or other consents are required, or other formalities need to be observed, to enable them to accept their Entitlements under the Offer.

The Directors will offer the Rights which would otherwise have been offered to each of those Shareholders with registered addresses other than in Australia and New Zealand (**Foreign Shareholders**) to the Nominee. If there is a viable market in the Rights and a premium over the expenses of the sale can be obtained, the Nominee will sell the Rights. Any sale will be at prices and otherwise in a manner determined by the Nominee in its sole discretion.

Neither the Company nor the Nominee will be held liable for failure to sell the Rights or to sell the Rights at any particular price. The proceeds of the sale will be distributed to Foreign Shareholders for whose benefit the Rights are sold in proportion to their shareholdings (after deducting costs).

If there is no viable market for the Rights, the Entitlement will be allowed to lapse and the New Shares will revert to the Underwriter.

The Nominee will receive an engagement fee of \$2,000 (exclusive of GST) and brokerage charges if any of the Rights of Foreign Shareholders are sold.

4.10 Taxation Implications

The Directors do not consider that it is appropriate to give Applicants advice regarding the taxation consequences of applying for new Shares under this Prospectus, as it is not possible to provide a comprehensive summary of the possible

taxation consequences. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Applicants. Potential Applicants should, therefore, consult their own professional tax adviser in connection with the taxation implications of the new Shares offered pursuant to this Prospectus.

4.11 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing share certificates. The Company will apply to ASX to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Investors whose Applications are valid will be provided with a statement (similar to a bank account statement) that sets out the number of Shares allotted to them under this Prospectus. The notice will also advise holders of their holder identification number or securityholder reference number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

4.12 Privacy Act

If you complete an application for Shares, you will be providing personal information to the Company (directly or via the Company's share registry). The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate dividend payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASTC Settlement Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.

4.13 Ranking of new Shares

The new Shares will be fully paid, and upon issue will rank equally with existing Shares. A summary of the rights attaching to the new Shares is set out in section 6.

4.14 Enquiries

Any questions concerning the Offer or this Prospectus should be directed to Mr David Sweet, Managing Director, on 0414 888 999 or Computershare Investor Services Pty Limited, the Company's share registry on 1300 556 161.

To illustrate the effect of the Entitlement Issue, a pro forma consolidated balance sheet has been prepared based on the audited financials as at 30 June 2008. It is important to note that the pro forma balance sheet is not intended to represent the financial position of the Company if the Entitlement Issue is implemented in full. 6. RIGHTS AND LIABILITIES ATTACHING TO THE SHARES

The new Shares issued pursuant to this Prospectus will be fully paid ordinary Shares and will rank equally in all respects with the Company's fully paid ordinary Shares currently on issue.

Subject to any restrictions on the allotment of Shares imposed by the Company's Constitution, the Listing Rules and the Corporations Act, Directors may issue ordinary Shares on such terms and conditions as they see fit.

The following is a broad summary of the rights and liabilities attaching to new Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, the Listing Rules and Corporations Act, a copy of the Constitution is available for inspection at the Company's registered office during normal business hours, or at ASX.

6.2 Voting Rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each fully paid Share held, but in respect of partly paid shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the Share.

6.3 Dividend Rights

The Directors may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special rights or restrictions as to dividends attaching to a Share and subject to the Listing Rules and Corporations Act, all dividends will be declared and paid according to the proportion which the amount paid on the Share is to the total amount payable in respect of the Shares (but any amount paid during the period in respect of which a dividend is declared only entitles the Shareholder to an apportioned amount of that dividend as from the date of payment). The Directors may from time to time pay or credit to the Shareholders

such interim dividends as they may determine. No dividends shall be payable except out of profits. A determination by the Directors as to the profits of the Company shall be conclusive. No dividend shall carry interest as against the Company.

The Directors may from time to time grant to Shareholders or any class of Shareholders the right to elect to reinvest cash dividends paid by the Company by subscribing for Shares in the Company on such terms and conditions as the Directors think fit. The Directors may, at their discretion, resolve in respect of any dividend which it is proposed to pay or to declare on any Shares of the Company, that holders of such Shares may elect to forgo their right to the whole or part of the proposed dividend and to receive instead an issue of Shares credited as fully paid to the extent and on the terms and conditions of the Constitution. The Directors may set aside out of the profits of the Company such amounts as they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

6.4 Winding-Up

Subject to the Company's Constitution, the Listing Rules and the Corporations Act, if the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

6.5 Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Company's Constitution, the Corporations Act and the Listing Rules.

6.6 Future Increase in Capital

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

6.7 Variation of Rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

7. RISK FACTORS

7.1 General

The Shares offered under this Prospectus should be considered speculative because of the nature of the Company's business and Applicants should consult their professional advisers before deciding whether to apply for new Shares. The operations of the Company are subject to a range of business risks, both of a general nature and of a specific nature in respect of the business activities of the Company. There can be no guarantee that the Company will achieve its stated objectives.

Applicants should consider the risk factors described below, together with information contained elsewhere in this Prospectus and should consult their professional advisers before deciding whether to apply for new Shares.

The following is a summary of the more material matters to be considered. However, this summary is not exhaustive and Applicants should examine the contents of this Prospectus in its entirety. These risks could result in loss of income and/or capital invested.

7.2 Economic Risks

Factors such as inflation, currency fluctuations, interest rates, supply and demand of capital and industrial disruption have an impact on business costs, and stock market prices. The Company's share price, operations, business and profitability can be affected by these factors, which are beyond the control of the Company and its Directors.

7.3 Market conditions

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities. These factors may include movements on international stock markets, interest rates and exchange rates, together with domestic and international economic conditions, inflation rates, commodity supply and demand, government taxation and royalties, war, global hostilities and acts of terrorism. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

7.4 Security Investments

Applicants should be aware that there are risks associated with any investment in securities. Securities listed on the stock market have experienced price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of the securities regardless of the Company's performance.

7.5 Industry Risks

The Company's current and future potential competitors include companies with substantially greater resources than it. There is no assurance that competitors will not succeed in developing products that are more effective or economic than the current products or any of those being developed by the Company or which would render the products obsolete and/or otherwise uncompetitive. In addition, the Company may not be able to compete successfully against current or future competitors where aggressive pricing policies are employed to capture market share. Such competition could result in price reductions, reduced gross margins and loss of market share, any of which could materially adversely affect the Company's future business, operating results and financial position.

7.6 Integration Risk

The Company has completed a number of acquisitions over the past eighteen months. The Company expects that value can be added for Shareholders by the efficient, timely and cost effective integration of the recently acquired businesses. However, a risk exists that any integration may take longer than expected, and/or the quantum of synergies and efficiencies achieved is less than expected. A failure to achieve integration in a timely manner or to achieve some or all of the synergies and efficiencies may have an adverse impact on the financial performance of the Company and therefore the value of its Shares.

7.7 Future Capital Requirements

The Company's ongoing activities may require substantial expenditures to exploit business activities it identifies. This may require the Company to raise additional capital from equity or debt sources. There can be no guarantees that Company will be able to obtain additional fundraising on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to shareholders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy.

The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

7.8 Reliance on Key Personnel and Employees

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. To manage its growth, the Company must attract and retain additional highly qualified management, technical, sales and marketing personnel and continue to implement and improve operational, financial and management information systems. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

The Company is dependent on its management, the loss of whose services could materially and adversely affect the Company and impede the growth of its business.

There can be no guarantee that the Company will be able to attract or retain sufficiently qualified personnel on a timely basis to develop its business.

7.9 Potential Acquisitions

As part of its business strategy, the Company may make acquisitions of or significant investments in complementary companies, products or technologies. Any such future transactions would be accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies.

7.10 Mobile Network Capacity Risks

The Company is supplied with mobile network services and capability through a third party carrier. The ability of the Company to continue to provide these services is contingent upon the carrier complying with all of its obligations under the network capacity agreement entered into with the Company.

The Company is unable to guarantee that the carrier will be able to continue to supply network capability and services in accordance with the network capacity agreement and any breach of the network capacity agreement by the Company or the carrier

could have a materially adverse effect on the Company's business, operations and financial prospects.

In addition, as a result of continued upgrades and changes to telecommunications technologies, the carrier may be prevented from providing the Company with network capability and services for short periods of time and may also be unable at all times to administer changes to the services offered by the Company that will allow flexibility in reacting to actions taken by competitors (such as reductions in tariffs charged to customers).

7.11 Probability of Achieving Mobile Connects and Retaining Mobile Customers

An important task for the Company is to maintain commercialisation of its mobile products through attracting new customers who sign up for the telecommunications services offered by the Company (**Connects**). The possibility of the Company achieving sufficient Connects depends on the offerings of the Company's competitors, the sales and marketing capability of the Company and the distribution network of its sales agents. It is equally important that the Company retains its existing mobile customers, both wholesale and retail. The possibility of the Company maintaining a sufficient number of retail mobile customers largely depends on the number of retail customers who are contracted for the Company's telecommunications services. This in turn is dependent upon the cash flows of the Company to fund the provision of handsets to the retail customers who sign a contract. Failure to achieve a sufficient number of Connects and retain a sufficient number of retail and wholesale customers could have a material adverse effect on the Company and its prospects.

7.12 Pricing

The Company's success depends upon its ability to take a highly competitive product to the market, utilising its marketing, network access and distribution channels. Notwithstanding this, the Company's success also depends on the charges it incurs from the network provider. The outcome of the pricing review which is in place under its network capacity agreement with the network provider, may adversely impact upon the Company's profitability.

7.13 Technology Risks

The Company's products rely on the technology infrastructure of the network provider. If this infrastructure, such as the rate of data transfer or the quality of bandwidth, is not upgraded with technological advancements or becomes redundant, this may impact on the revenues generated by the Company if customers prefer the products of competitors.

7.14 Debt Facility Risks

The Company has recently entered into new secured debt facilities with Co-Investor Capital Partners Pty Ltd and has existing debt on its balance sheet. The Company's ability to refinance that debt on favourable terms as it becomes due or to repay the debt, its ability to raise further finance on favourable terms for its businesses and to pursue opportunities, and its borrowing costs will depend on market conditions and the Company's performance. A negative change in the Company's performance may have an adverse effect on its ability to borrow and its cost of funds. If the Company is unable to repay any of its debt facilities as they fall due then this will have a material adverse effect on the Company.

7.15 Competitive and volatile nature of the Media industry

Empowered Communications is subject to vigorous competition from other operators within the media industry. This competitive environment may result in Empowered Communications experiencing customer loss. In many cases, Empowered Communications provides a portion of its customers advertising and marketing needs only in particular geographic areas, thus enabling the customer to compare the effectiveness of Empowered Communications against other companies' results. In addition, customers put their advertising contracts up for competitive bidding at regular intervals and have the ability to move their accounts to competitors on relatively short notice.

Customers generally are able to reduce advertising and marketing spending or cancel projects at any time for any reason. Empowered Communications relies upon personal relationships with a large number of customers within the advertising and marketing industries in order to maintain and grow its earnings. A significant reduction in spending by key customers, or the loss of key customers could adversely affect Empowered Communication's prospects, financial position and results of operations. Empowered Communications has in the past been able to grow its revenue notwithstanding customer loss, but there is no guarantee that this will continue.

7.16 Other Risks

Certain unavoidable risks which are incurred in the ordinary course of the Company's business, such as underperformance in the achievement of sales targets, failure to realise benefits from operational synergies, increased costs of sales and increases in overheads may have an adverse impact on the results of the Company. The future taxation regime for companies and individuals may impact on the tax position of both the Company and individual Shareholders.
